MAY 2023

As all the epidemic prevention measures were lifted, the day without masks finally arrived. Smiling faces are now seen on the streets, and tourists and Hong Kong residents who have been staying abroad for a long time are returning to Hong Kong one after another. Hong Kong is gradually reverting back to the vibrant and lively 'old normal', which we all love..

As summer approaches, we are ready to embrace the sunny days and soar high in the sky. Would you like to join us in flying proudly in the sky?

## Happy Mother's Day!

The second Sunday of May is Mother's Day. Have you prepared a gift for your mother? Why not plan a unique flying adventure for her and let her enjoy the beauty of Hong Kong from a different perspective? We offer a special promotion for private charters, starting from just \$15,560. Please contact our booking department to make a reservation.

## HKU SPACE Aviation Studies Students Visit

In mid-March, a group of students from the HKU SPACE Aviation Studies visited Heliservices. Our marketing, human resources, operations, and safety management departments all had representatives present to provide a detailed explanation of their respective roles within the company. The visit was a great opportunity for the students to gain a deeper understanding of our helicopter services, including air transportation, aerial work, and helicopter maintenance.

Fortunately, the weather was perfect during the entire event, and the students had a chance to see our helicopters up close and in action. It was our pleasure to host of the students and look forward to seeing them again next year!

## New exquisite gifts are now available!

In the new year, we have produced a set of vacuum-insulated water cups, warm hoodies, and towel sets, all with the MD902 EXPLORER helicopter design. Don't they look gorgeous? All items have arrived at our Tsim Sha Tsui booking centre and are now available for purchase. You are welcome to visit us anytime to select your favourite items.

## The Peninsula Hotel Logo

Did you know...? In addition to the Heliservices logo on our helicopters, we have recently added The Peninsula Hong Kong's logo to the bottom of our fleet. Next time when you see our helicopters flying overhead, be sure to look up and take a glimpse of the logos.
